

GENERAL INFORMATION	
KEYWORDS	Aphasia, Stroke, Category 3 aviation medical certificate
FILE NO.	Q-1895-01
SECTOR (Marine or Aviation)	Aviation
SPECIFIC JOB	Private pilot
DIAGNOSIS (Primary, Secondary, etc.)	Suffered from an acute aphasic episode
REVIEW	
DATE OF DETERMINATION	April 4, 2000
MEMBER	Dr. Anne Thériault
DETERMINATION	The decision of the Minister of Transport not to renew the applicant's category 3 medical certificate is confirmed.
REASONS FOR THE DETERMINATION	Refusal to renew a category 3 aviation medical certificate — From the evidence, the Tribunal member cannot determine whether the applicant had a TIA or a stroke. However, even though the applicant's blood pressure and hypercholesterolemia are controlled, in light of the evidence submitted to the Tribunal, the Tribunal member could not establish that the applicant's risk for a relapse of a cerebrovascular incident is under the 2% threshold. Therefore, the decision of the Minister of Transport not to renew the applicant's category 3 medical certificate is confirmed.
